

Architecture Where Creativity Meets Engineering

Transforming visions into extraordinary spaces

Beyond Traditional Architecture

Art Meets Function

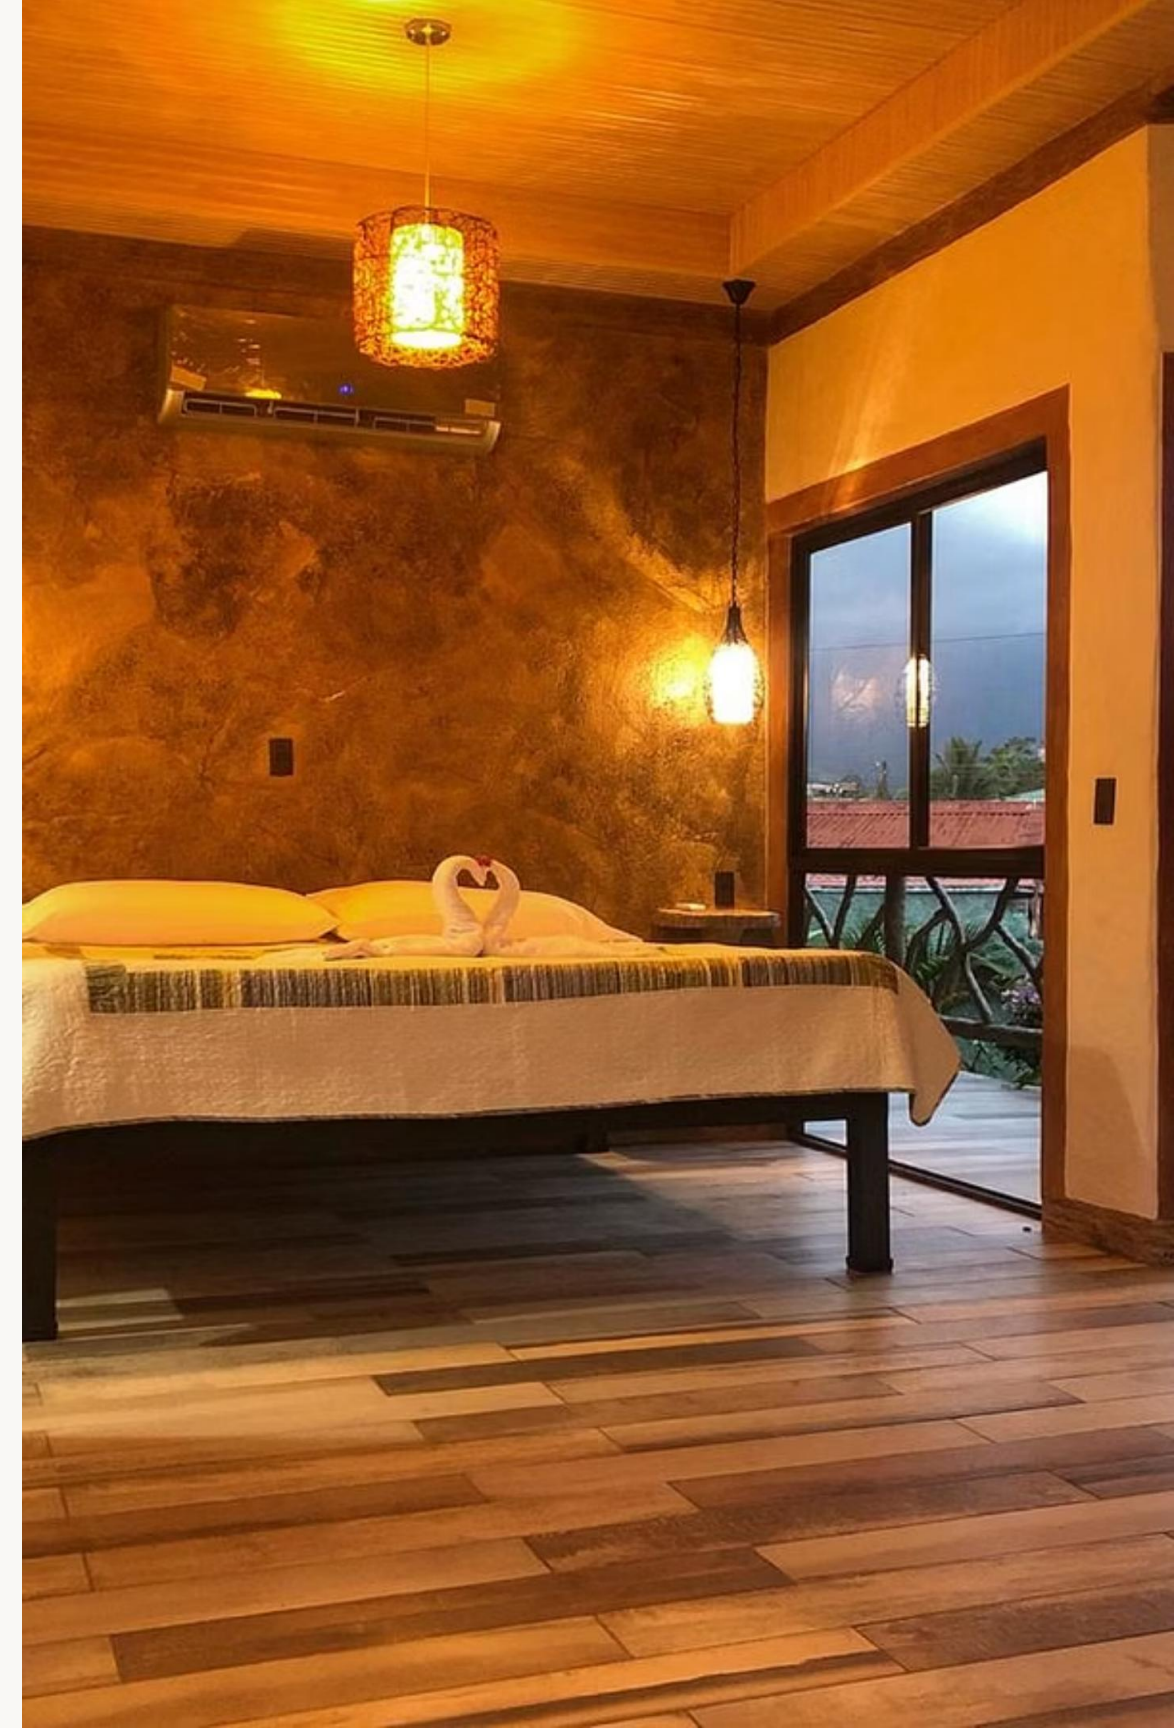

The perfect fusion of artistic vision and practical functionality in every design decision

Creative Breathing

Design that breathes creativity, construction that breathes precision and technical excellence

Unique Experience

Each project becomes a personalized journey, tailored to your specific vision and needs

Our Team: The Perfect Duo

Two Visions, One Goal

Jorge Espinoza
The Creative Visionary

- Architect specialized in conceptual design
- Expert in spatial composition and diagramming
- Transforms ideas into living sketches
- Master of creative visualization

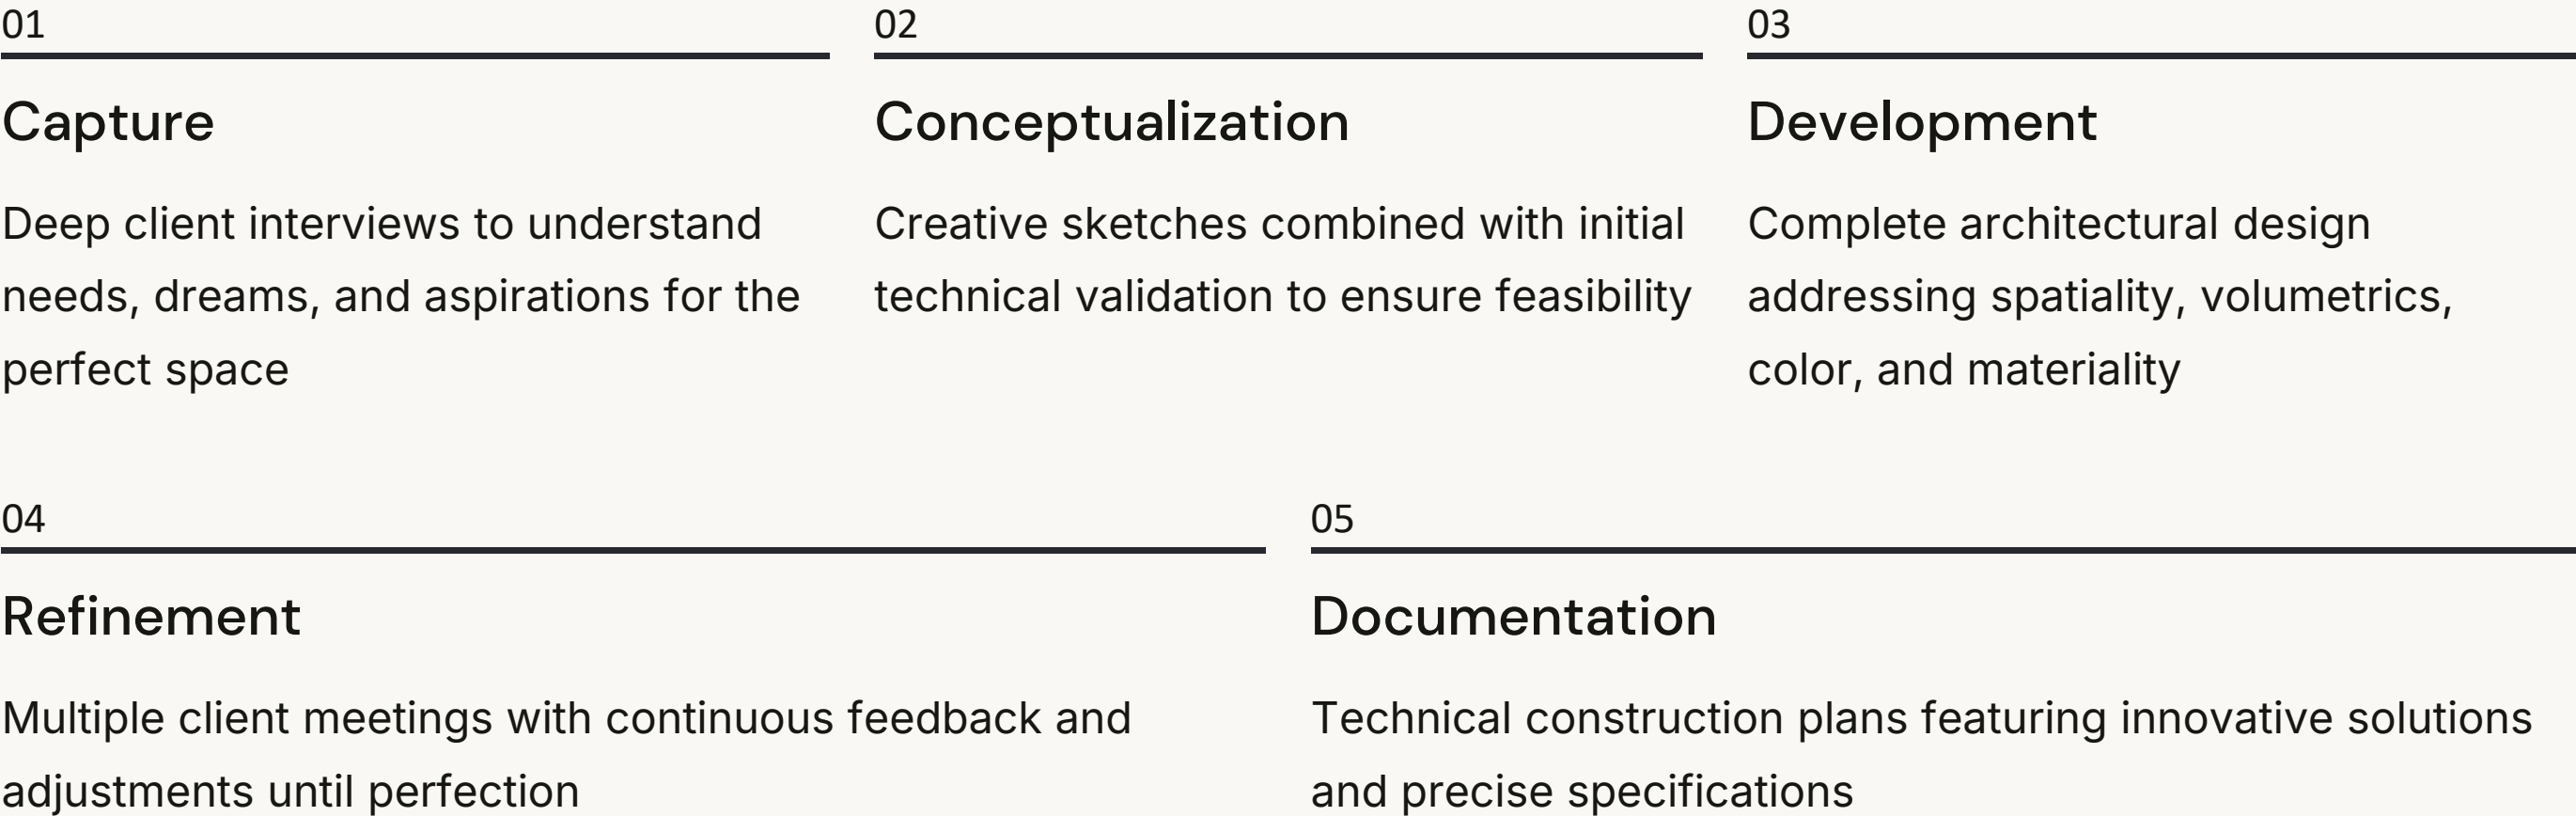

Harold Guevara
The Technical Innovator

- Architect and Electromechanical Engineer
- Specialist in functional and constructive solutions
- Extensive experience in project execution
- Expert in AI, laser scanning, and BIM technology

Our Unique Process

From Inspiration to Reality

Our Experience

Diverse Portfolio, Exceptional Results

High-End Residential

Premium projects ranging from \$400K to over \$1M, offering personalized luxury design for discerning clients

- Custom homes ₪200M - ₪500M
- Bespoke architectural solutions
- Premium finishes and materials

Accessible Residential

Thoughtfully designed developments from \$200K - \$300K, maximizing value without compromising aesthetics

- Smart design solutions
- Quality within budget
- Efficient spatial planning

Commercial & Industrial

Innovative commercial spaces and corporate interior design with functional, tailored solutions

- Retail and office spaces
- Corporate environments
- Industrial facilities

Technology + Creativity

21st Century Tools, Artist's Soul

Traditional Methods

- Hand-drawn sketches capturing initial vision
- Conceptual physical models
- Manual diagramming and composition
- Artistic touch in every line

Technological Innovation

- Artificial Intelligence for design optimization
- Laser scanning for precise measurements
- BIM modeling for coordination
- Photorealistic rendering visualization

Global Reach

Based in Costa Rica, International Vision

Headquarters

Proudly based in Costa Rica, serving local communities with excellence

International Projects

Capability to deliver architectural services across borders and continents

No Boundaries

Excellence in design knows no geographical limits or constraints

Services in Costa Rica and abroad

Our Commitment

More Than Architects, Partners in Your Vision

Active Listening

Complete personalization through deep understanding of your unique needs, preferences, and lifestyle requirements

Balanced Solutions

Perfect equilibrium between stunning aesthetics and practical functionality in every design element

Constant Communication

Transparent, continuous dialogue throughout every phase of the design and construction process

On Time, On Budget

Unwavering commitment to meeting deadlines and respecting your financial parameters without compromise

Let's Build Together
